"OUR FIRST ISSUE"

PG. 2, COL. 2

Nothing attempted, nothing gained. Years have passed since the press has turned off a News sheet in Matawan, and the time we think has come for another effort to establish a Journal in our village. We are living in an age of advancement and energy, and our people have given, of late, several proofs of their ambition to keep pace with the spirit of the times. Within the past two or three years a number of very important improvements have been made. Glenwood Institute,¹ has been enlarged to one-third more than its former size. Our Building and Loan Association has been organized, and we have now, after a successful working of two-and-a-half years, over forty-thousand dollars loaned on bond and mortgage. This has led to the erection of a large number of new and very neat residences in, and upon the outskirts of the town. Last winter, the Merry laugh and happy cheer gave proof that the danger heretofore risked for the sake of an hour's pleasure in skating was gone, and crowds thronged our fine skating pond. This summer we do not have to depend upon our Keyport neighbor for ice; but, through the enterprise of our friend, Dr. Geran, we have our village Ice House. The parade on Independence Day, called the attention of town and country to our beautiful Fire Engine and uniformed Fire Company; and following the procession, we had the pleasure of joining in the exercise of dedication of the fine two-story Engine House,² and the presentation of it and the engine to the company. The Railroad, too, claims a share in our review, and though we have not yet heard the whistle of the locomotive and rolling of the train, yet we are indulging in that which is the evidence of things not seen as yet, and imagine we hear the coming of the train, the shrill voice of the whistle, and the conductor calling "all out for Matawan."

Amid all these improvements, shall we not have a paper! We have resolved to make the attempt, and see if we cannot, by perseverance, work our journal up to an enlarged weekly issue; to plant the acorn, hoping to see it grow into the strong, unyielding oak. To accomplish this, we call for the earnest co-operation of our friends.
